UNIVERSITY OF MANAGEMENT AND TECHNOLOGY

Pakistani Academic Handbook 2026

Six Undergraduate Programs • Lahore, Pakistan

Program	Degree	Duration	Program Type
BS Computer Science	BSCS	4 years	Morning
BS Software Engineering	BSSE	4 years	Morning
BS Information Technology	BSIT	4 years	Morning
Bachelor of Business Administration	BBA	4 years	Morning
BS Artificial Intelligence	BSAI	4 years	Morning
BS Data Science	BSDS	4 years	Morning

PROJECT REFERENCE EDITION — NOT AN OFFICIAL UMT PUBLICATION

Prepared for an Agentic AI Conditional Workflow. The program names and 2026 program/fee data are based on UMT's publicly available admissions information.

1. Programs Offered

For this Pakistani academic handbook, the workflow uses six UMT undergraduate programs. UMT's Fall 2026 listings identify BS Computer Science, BS Software Engineering, BS Information Technology, BS Artificial Intelligence and BS Data Science as four-year undergraduate programs; UMT separately lists the four-year Bachelor of Business Administration.

#	Program	Code	Duration	School / Area
1	BS Computer Science	BSCS	4 years	School of Systems & Technology
2	BS Software Engineering	BSSE	4 years	School of Systems & Technology
3	BS Information Technology	BSIT	4 years	School of Systems & Technology
4	Bachelor of Business Administration	BBA	4 years	Dr Hasan Murad School of Management
5	BS Artificial Intelligence	BSAI	4 years	School of Artificial Intelligence / computing
6	BS Data Science	BSDS	4 years	School of Systems & Technology

2. Common Undergraduate Academic Requirements

The following academic rules are suitable as common workflow reference data. UMT's published academic and examination policies should always be treated as the controlling source for a particular batch or course.

Item	Reference Rule
Attendance	Minimum 80% attendance is required to sit in the final examination.
Assessment	Course assessment may include assignments/projects, quizzes, mid-term examination and end-term examination.
Final Examination	End-term examinations are conducted according to the official examination schedule.
Grading	UMT uses a relative grading scheme with letter grades and grade points.
Degree CGPA	A minimum 2.00 CGPA is required for bachelor's degree completion.
Program Duration	The six selected programs are listed as four-year undergraduate programs.
Academic Language	UMT program information and instruction are generally presented in English.

3. Examination and Evaluation

UMT's published assessment structure describes sessional and examination components. The exact distribution can vary according to the nature of the course.

Component	Typical / Published Reference
Assignments / Projects	Used as sessional assessment; weighting varies by course.
Quizzes	Used as a sessional assessment component.
Mid-Term Examination	A mandatory assessment component for undergraduate courses.
End-Term Examination	A mandatory final examination component.
Practical / Lab Work	May include practical work, viva, projects or laboratory assessment where applicable.

4. Grading System

Grade	Grade Point	Status / Meaning
A+ / A	4.0	Highest published grade category
A–	3.7	Letter grade
B+	3.3	Letter grade
B	3.0	Letter grade
B–	2.7	Letter grade
C+	2.3	Letter grade
C	2.0	Letter grade
C–	1.7	Letter grade
F	0.0	Fail
I	—	Incomplete
W	—	Withdrawal
SA	—	Short Attendance
P / S	—	Pass / Satisfactory

GPA is calculated from course credit hours and grade points; CGPA is the cumulative weighted result across completed coursework.

5. Admission Reference for the Six Programs

For the computing programs in this set, UMT's 2026 admission criteria generally state minimum 50% marks, no third division in Matriculation, and minimum 50% marks in the relevant admission test. Mathematics is required for BSCS, BSSE, BSIT, BSAI and BSDS; students without the required mathematics background may have to complete deficiency mathematics courses.

BBA has its own admission criteria: UMT lists minimum 50% marks in Intermediate/A-Level or equivalent, no third division in Matriculation, and 50% marks in the NTS/UMT entry test.

Program	Minimum Academic Reference	Admission Test
BSCS	50% + no 3rd division in Matriculation	50%
BSSE	50% + no 3rd division in Matriculation	50%
BSIT	50% + no 3rd division in Matriculation	50%
BBA	50% + no 3rd division in Matriculation	50% NTS/UMT
BSAI	50% + no 3rd division in Matriculation	50%
BSDS	50% + no 3rd division in Matriculation	50%

6. Program-Specific Academic Focus

Program	Focus Reference
BSCS	Computer science foundations, programming, algorithms, systems, software, projects and internships.
BSSE	Software modeling, analysis, design, development, verification, validation, quality/testing and management.
BSIT	Information systems, IT infrastructure, networks, software, organizational technology and practical IT applications.
BBA	Business, management, economics, marketing, supply chain, information systems, accounting and finance.
BSAI	Artificial intelligence concepts, intelligent systems, data/analytics, NLP and AI engineering.
BSDS	Data science from a computing perspective, data processing, analysis and computational intelligence.

7. Academic Progress and Degree Completion

Students are required to complete the prescribed scheme of studies and satisfy the university's academic, examination and financial requirements before degree issuance. UMT's published degree-completion policy specifies a minimum 2.00 CGPA for bachelor's degree completion.

7.1 Repeat / Incomplete / Withdrawal

UMT maintains formal procedures for repeat courses, incomplete grades, withdrawal, short attendance, unfair means and other examination matters. These procedures should be handled according to the current Office of the Controller of Examinations policy.

7.2 Projects, Labs and Practical Work

Depending on the selected program and course, practical laboratory work, projects, term reports, senior projects, presentations or internships may form part of the academic pathway.

8. Conditional Workflow Dataset

Condition	Return
Pakistan + UMT + BSCS	BS Computer Science academic + fee profile
Pakistan + UMT + BSSE	BS Software Engineering academic + fee profile
Pakistan + UMT + BSIT	BS Information Technology academic + fee profile
Pakistan + UMT + BBA	Bachelor of Business Administration academic + fee profile
Pakistan + UMT + BSAI	BS Artificial Intelligence academic + fee profile
Pakistan + UMT + BSDS	BS Data Science academic + fee profile
No matching program	Ask for / route to another supported program

Important: This is a project reference document, not an official UMT-issued handbook. Current UMT notices and policies should be used for real academic decisions.

Source basis: UMT Fall 2026 program listings, individual 2026 program pages, admission criteria and UMT academic/examination policy information.
